I use a system that Scott Fawcett came up with. He's helped me understand the percentages of going for flags, when to go for flags and when not to.

What I like the best is it removes all indecision and lets me swing with confidence, knowing that I have the correct and best target selected.

You've saved me decades of learning. I can't thank you enough Scott.

I had been stuck at a 5-7 handicap for years and truly felt I should be shooting lower scores. I just today shot 2 under and my handicap is .6 which is the lowest it's ever been. 17 rounds played and I'm averaging 73.7 for the year with no rounds over 77 and my low round is 69. I'm super excited to see where this journey takes me.

In my career as a nationally top ranked coach, former tour player, and industry business leader I've never seen a product that improves scoring like Decade. The results are amazing! If you want to be the best player you can be then you need Decade.

Our job as Coaches is to optimize our players performance and DECADE is a major aspect of that process. If DECADE is not a part of your strategy, you and your team are at a disadvantage.

I was an occasional golfer playing once or twice a year until 2019 when I took up the game seriously. I chose to be the best golfer I could be and by 2020 I had established a 15 handicap. A friend turned me on to Decade in 2021 and it made a tremendous difference. By the end of the year I was a +1. If you want to improve your golf and be the best golfer you can be I strongly recommend Decade. In fact, I'm not sure you can be the best you can be without it.
